

## Fellowship in Integrated Pain Medicine

# BROCHURE

Dear Applicant,

Thank you for your interest in our Hybrid fellowship program. Please read the instructions below before registering for the **Hybrid** training, **(Online teaching + On-site training options)**

### ABOUT THE PROGRAM

The program is a low cost, international, high quality education program backed by the Society of Integrated Pain and palliative care (**SIPP**), collaborating with the education platform offered by Smart Pain Technology International Limited. The Program is designed keeping in mind the recommendations of existing standard training education being provided across the world, with practice guided by evidence-based medicine and current guidelines. **There are 3 Online Modules of 4 months each.**

**The 1 year fellowship starts in January and gets over by December the same year. Certificates are given only to those who complete the 1 year training. You may read the testimonials on the Testimonial section of the page: <https://sipp.org.in> or on <http://smartpaintech.com/testimonials.php>**

### ABOUT THE TRAINERS

The trainers in this program are from a pool of experienced pain and palliative care practitioners from around the world with a rich fund of knowledge and clinical skills. They are thought leaders in their field and have set up pain and palliative care services in diverse set-ups across the globe.

### BROCHURE

**ABOUT THE TRAINING:** Acute and Chronic pain are challenging yet very satisfying-to-treat conditions. Most specialists are underprepared to deal with these challenges. This course aims at enabling the trainee to address chronic pain, acute pain and palliative care needs in the community with confidence and high quality.

#### **DURATION AND MODULES at a glance**

The ONLINE Training program is divided into **3 Academic modules (4 Months Each)** to cover **TOTAL 12 MONTHS: (= 1 year Fellowship training)**

Academic Modules	Delivery	Course duration	Applications open
1: BASIC ESSENTIALS OF PAIN MEDICINE	Online	January to April	Previous September
2: THERAPEUTICS AND INTERVENTIONS IN PAIN MEDICINE	Online	May to August	Preceding March
3: ADVANCED TRAINING in PAIN MEDICINE	Online	September to December	Preceding July
